Subject: Convoy Demo Ops Plan File Coordinator

Unclassified

Hi Kevin and Paula,

As discussed earlier, I am assigning both of you to start building an official Organizational Ops Plan file and binders for key commanders. I have provided some high level direction on structure but we need one repository for all plans with a proper index. Deliberate Action Plans will need to be filed in as appendixes and listed in the index.

I would like to also start an accountability log for all plans requested, being worked on, delivered and approved. If approved it will be implemented into official file and binders

Paula Armstrong will be our Ops Plan File Coordinator moving forward in the SCC (supported by Kevin Kennedy).

Kevin, do Paula and I need access to a particular V drive where plans are being housed?

I would please ask that all finalized and Event Commander approved Ops plans from all commands be forwarded to Paula for processing. (this will include all AdHoc & Deliberate Action Plans)

Supt Patterson, please CC Paula on all replies of Plan Approval (and please include approved version.

Thanks all

Rob
